Press Release

Formation of low pressure area over Central parts of South Bay of Bengal

A low pressure area is very likely to form over central parts of South Bay of Bengal around 23rd November, 2020. It is likely to concentrate into a depression over Southwest Bay of Bengal and move westnorth-westwards towards Srilanka - Tamilnadu coast during subsequent 48 hours.

Heavy Rainfall Warning

23.11.2020: Heavy rain is likely to occur at isolated places over Nagapattinam, Thanjavur, Tiruvarur, Sivagangai, Ramanathapuram and Pudukottai districts.

24.11.2020 : Heavy to very heavy rain is likely to occur at isolated places over Nagapattinam, Thanjavur, Tiruvarur, Sivagangai, Cuddalore, Mayiladuthurai, Ramanathapuram and Pudukottai districts.

Fisherman Warning

22.11.2020: Squally weather with wind speed reaching 40-50 kmph gusting to 60 kmph is very likely to prevail over Central parts of South Bay of Bengal.

23.11.2020: Squally weather with wind speed reaching 40-50 kmph gusting to 60 kmph is very likely to prevail over Southwest Bay of Bengal.

24.11.2020: Squally weather with wind speed reaching 40-50 kmph gusting to 60 kmph is very likely to prevail over Southwest Bay of Bengal and Tamil Nadu coast.

Fishermen are advised not to venture into these sea areas for the above mentioned period.

IMD is continuously monitoring the weather situation and updates would be sent as and when required.
